Letter of Consent

I hereby express my great interest in continued service in Journal of Allergy & Therapy as an Editor (or) Author (or) Reviewer. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

RE: Supporting letter for CMHE to be indexed in PubMed Central

To whom it concerns:

I have been served as a Editorial Board member for Journal of Community Medicine and Health Education for three years.

I strongly recommend this journal to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

If you have any questions or need additional information, please do not hesitate to contact me at 204-272-3137 or via e-mail at depeng.jiang@med.umanitoba.ca

Sincerely,

Re: Letter of Recommendation to get Biochemistry & Pharmacology: Open Access indexed in Pub med.

Dear Sir/Madame,

I would like to express my strong recommendation and my complete support for Biochemistry & Pharmacology: Open Access to be indexed in PubMed. My knowledge of this Journal, as well as my exceptionally high regard for its scientific potential, stems from my direct collaboration as an Editor with Biochemistry & Pharmacology and observation of the remarkable work that the editorial board and staff is conducting to make of this Journal an attractive avenue to report original and high quality research.

As for my qualifications to provide this recommendation, I am currently a Research Associate at the Department of Biochemistry and Molecular Biology at the University of Maryland School of Medicine. I hold a MD, and a PhD degree in Neurophysiology. I have 11 years of scientific research experience in the fields of neuronal and muscle electrophysiology as well as in the study of structure and function of calcium channels. My research has been focused in understand the molecular mechanisms underlying neuronal and skeletal muscle calcium signaling. I have published 21 articles in prestigious peer-reviewed journals, such as Journal of Neuroscience, American Journal of physiology, Cell Calcium, and European Journal of Physiology and the Journal of Clinical Investigation. I am member of scientific societies including the Biophysical Society and the American Association for the Advancement of Science. I am also heavily involved in the education and training of under/graduate students and postdoctoral scientists. Therefore, I feel that I qualify to evaluate and recommend Biochemistry & Pharmacology's capabilities and its potential in the scientific field. In summary, I highly and without reservations recommend this Journal to be indexed in PubMed.

Sincerely yours,

A handwritten signature in black ink, appearing to read "E.O. Hernandez-Ochoa".

RECOMMENDATION LETTER

Herewith, I confirm that Biochemistry & Pharmacology Open Access Journal is an Pharmaceutical Sciences Journals from the OMICS Group dealing with printing and publishing papers that includes a generously range of fields connected with fundamental, experimental and clinical aspects of Biochemistry and Pharmacology as core biomedical disciplines. As such Biochemistry & Pharmacology Open Access is becoming a open platform for confronting ideas and research results without any restriction.

The journal select, through a high quality review process, original articles, review articles, case reports, short communications, in all areas of the above mentioned field making them freely available through online in a short time interval.

A very professional team of editors are managing the hole process of submission, review, revise, and publish.

The scientific content of the journal become more and more valuable and important by this design of a fair and unobstructed publishing policy.

Considering all this qualities, so promptly consolidated, I strongly recommend this journal to be indexed in PubMed.
